PROFESSIONAL SUMMARY

Versatile early-career professional combining hands-on full-stack software development, foundational blockchain knowledge, scientific research and organisational leadership. Built React dashboards and Node.js/Express APIs, administered a collaborative nine-person software project, and supported student programmes serving hundreds of participants. First Class Chemistry graduate recognised for analytical thinking, clear communication, initiative and reliable project execution.

CORE COMPETENCIES

Software & Web2: JavaScript, React, HTML, CSS, responsive interfaces, Node.js, Express.js, REST APIs, MongoDB, Mongoose, JWT, CRUD; Python (foundational).

Web3 & blockchain: Ethereum and transaction fundamentals, consensus mechanisms, cryptographic hashing, Layer 1/Layer 2 concepts, DeFi, NFTs, Chainlink oracle concepts.

Tools & digital workflows: Git/GitHub, Postman, VS Code, Vite, Cloudinary, Multer, Nodemailer, Microsoft Office, technical documentation.

Transferable skills: research and data analysis, written communication, meeting minutes, stakeholder coordination, teamwork, problem-solving and event planning.

SELECTED DIGITAL PROJECTS

Multi-Vendor Marketplace | React Developer & GitHub Repository Administrator | 2026

- Developed admin and vendor dashboard interfaces for products, orders, customers, analytics, reviews, store profiles and settings.
- Managed repository and branch-based collaboration for a nine-person capstone team; supported integration, presentation and deployment.

Live: multi-vendor-marketplace-lac.vercel.app | GitHub: github.com/Ebidavs/multi-vendor-marketplace

Digital Banking System | Independent Backend Developer | 2026

- Built Node.js, Express and MongoDB services for authentication, customer onboarding, BVN/NIN verification and account workflows.
- Integrated third-party banking APIs, implemented protected routes and provider-response handling, and tested endpoints with Postman.

GitHub: github.com/Ebidavs/digital-banking

Inventory Management System | Backend Developer | 2026

- Created RESTful product and user management APIs with authentication, role-based access, Cloudinary image uploads and email notifications.

LEADERSHIP & ORGANISATIONAL EXPERIENCE

Secretary General | Student Chemical Society of Nigeria (SCSN), South-South Region | 2026–Present

- Prepare meeting minutes and official communications, maintain records and coordinate follow-up across regional student representatives.

Secretary General | SCSN, University of Benin | 2025

- Supported administration and communications for approximately 600 students; helped organise academic events and free exam-preparation classes benefiting 200+ students.

Head of Media | Chemistry Department, University of Benin | 2025

- Established departmental Instagram and TikTok channels to strengthen outreach and student communication.

Additional leadership | 2023–2025

Director of Project & Development, SCSN South-South Region (2025); Chief Whip, Faculty of Physical Sciences Student Assembly (2024); Student Representative (2023).

EDUCATION & PROFESSIONAL TRAINING

University of Benin | B.Sc. Chemistry, First Class Honours | 2025

CGPA: 4.53/5.00 | Undergraduate research project: Grade A

TechSphere Academy | Full-Stack Software Engineering | Jan–Oct 2026

Practical training in React, Node.js, Express, MongoDB and software collaboration; certificate scheduled for 30 October 2026.

Cyfrin Updraft | Blockchain Basics Certificate | July 2025

Norbit Academy | Blockchain Technology Training | Sep–Dec 2025

RESEARCH & PRACTICAL EXPERIENCE

Undergraduate Research | University of Benin | 2025

Investigated adsorption of iron(III) ions using Aseni clay for water treatment; designed batch experiments, prepared solutions, analysed adsorption behaviour and interpreted quantitative results.

Industrial Training Student | Centre for Forensic Programming and DNA Studies, University of Benin | Sep 2024–Feb 2025

Performed biological sample preparation using buccal swabs and banana material, cell lysis and micropipette handling. Industrial training grade: A.

RECOGNITION & INTERESTS

Faculty recognition for leadership and service; leadership certificates for student governance roles. Interests: football, basketball, table tennis, volleyball and music (keyboard, bass guitar and drums).
